Health & Safety Acknowledgement for LCBO Construction, Renovation and Maintenance Projects

At all times during the execution of this construction project, the Contractor is responsible for ensuring the Health and Safety of all workers, sub-contractors, supervisors, LCBO Employees and LCBO Customers.

The Contractor is required to fulfill all of the Duties and Responsibilities as defined under the **Occupational Health and Safety (OHS) Act and applicable Regulations** for both the **Employer** and the **Constructor**.

Prior to the commencement of work, the Contractor will be required to demonstrate to the LCBO that they understand what these aforementioned Duties and Responsibilities are, and that they are prepared to abide by them throughout the course of the project to its completion. This will, in part, be done by having the Contractor provide to the LCBO, a copy of their OHS Policy and Program for review prior to commencement of the work.

During the course of the project, the LCBO will do random, unannounced Health and Safety Audit Inspections using the attached "Health and Safety Audit Inspection Checklist" (LCB 2273) to ensure that the Contractor is in fact fulfilling all of their duties and responsibilities on site.

Failure to maintain the items listed in the attached LCBO Health and Safety Audit Inspection Checklist (LCB 2273) at any time during the duration of the contract may result in a failing score for that audit inspection. A failed audit inspection may result in an "Unacceptable" score on the Health and Safety section of the next Contractor Report Card, which will result in a failing score for that report card.

Any contraventions of the OHS Act and the applicable Regulations for Construction Projects or the Contractors' own Health & Safety Policy and Program will be brought to the attention of the Contractor immediately. The Contractor will be expected to rectify all such contraventions immediately and will ensure that reoccurrence of those identified contraventions will not happen. The Contractor will sign the inspection report and will receive one (1) copy which will be kept on site. Another copy will be entered into the minutes of the next regular site meeting.

For **New Construction Projects**, over the course of the contract, the LCBO will complete a specified number of "Contractor Report Cards" which includes a section on Construction Health and Safety. Each section of this report card must receive a passing score or the report card will be classified as a failure. If the Contractor receives an unacceptable number (based on the type of project) of failed reports, they will be prohibited from bidding on LCBO contracts for two (2) years.

For **All Other Construction, Renovation, and Maintenance Projects**, if, over the course of the project, the Contractor receives three (3) or more failed or "Unacceptable" Health and Safety Audit Inspection reports, they will be prohibited from bidding on LCBO contracts for two (2) years.

Note: At all times, an LCBO Store/Facility Manager or their designate has, at their discretion, the authority to stop any activity that he/she feels is endangering LCBO employees and/or customers, or that puts the store, property or products at risk of damage. The Contractor will be expected to rectify all such situations immediately and ensure that they don't happen again.

Health & Safety Responsibilities Checklist (Construction, Renovation and Maintenance Projects)

The following list of basic Health and Safety requirements and documentation is provided by the LCBO to assist the Contractor. This list is not exhaustive of all of the Contractor's duties and responsibilities under the Occupational Health and Safety Act (Act) and Regulations for Construction Projects (Regs) and the Contractor is still responsible to fully comply with all sections of the Act and Regs that applies to the work. Prior to the commencement of work, at the kick-off meeting, the Contractor will be required to discuss and provide information for all of the items listed below, as well as any other Health and Safety concerns specific to the work.

In the event that there are inconsistencies between this checklist and the Act and Regs, the Contractor must follow the Act and Regs.

1.0 Health and Safety Requirements

All of the documentation required by the LCBO regarding occupational health and safety on our construction and renovation work sites represents existing legal duties and responsibilities of the Contractor under the Act and Regs.

As the "Owner" of the work, the LCBO is required to ensure that the Contractor is competent, and is capable of fulfilling their legal duties and responsibilities as the Constructor (the General Contractor) and as the Employer (should any of the workers on site are employed directly by the G.C.) as defined under the Act.

1.1 The following is a list of items that they must post on site as per the OHS Act and the WSIB Act:

The training records for each worker will be kept on site for the duration of the project and no worker will be allowed to do any work on site until proper, current training records for them have received on site.
- 1.3.1 The minimum required training for **all** workers on site at any time will be:
- WHMIS-with a program or review certificate dated not more than 1 year ago

The Contractor shall ensure that all of their own work force and all of their sub-trades that do any of these specified tasks have received all of the applicable Required Training. The records of training for all such trained workers shall be kept on site and shall be available for review by the LCBO. Any worker requiring any of these specified training programs will have a current, up to date record of all such training available on-site prior commencing any of those specified work tasks on site.
- 1.4 As per O.Reg. s. 14 the Contractor shall provide full time supervision at the project site at all times during the project.
- 1.4.1 The site super and all foremen used on site shall be Competent as defined in the OHS Act. The Contactor shall provide proof of Competency Training for the site super and any foremen.
- 1.4.2 The contractor is reminded that, under O.Reg. s. 14(2), the site super must conduct an inspection of the site at least weekly and that a record of these inspections will be kept on site for the duration of the project. The LCBO will want to see these inspection records at each of the site meetings.
- 1.5 The LCBO insists on strict adherence to the Housekeeping section of the Construction Regulations (O.Reg. s. 35) which requires that the workplace will be cleaned as often as necessary **and at least once per day**. To accommodate this, the Contractor will make provisions for an adequate number of refuse bins on site.

LCBO Contractor Performance Evaluation Process and Acknowledgement Form

The LCBO's Store Development, Real Estate, Facilities, and Safety Environmental Management departments have adopted a Performance Evaluation Program which will be used to monitor and assess the performance of contractors to ensure the responsible management of LCBO contracts by setting out clear expectations and benchmarks to encourage responsibility and accountability. The Performance Evaluation Program will be used to document and provide feedback (whether positive or negative) regarding the performance of contractors during and at the conclusion of each project. This will also determine whether a contractor has successfully satisfied their contractual requirements and thus allow based on their performance, the LCBO to take appropriate action to prevent future problems based on their past performance. The discretion to take any such action will be taken in a fair, reasonable and transparent manner.

Contractor Performance Evaluations will be taken into consideration when considering the eligibility of future award for contractors.

1) The Contractor will be evaluated based on the following criteria:

- ✓ Project/Contract Management
- ✓ Quality and Workmanship
- ✓ Work Performance/Contract Execution
- ✓ Health and Safety

Rating	Rating Description	Grading Scale
Good	Contractor is meeting and/or exceeding all contract requirements technically and administratively	7 - 10
Adequate	Contractor is meeting all contract requirements, technically and administratively with minor issues	5 - 6
Unsatisfactory	Contractor is failing to satisfy the minimum contract requirements, technically and administratively with major issues	0 - 4

- 2) The number of performance evaluation report cards generated for each construction project will depend on the duration and complexity of each project. A maximum of one (1) report card per week will be issued, followed by a final summary report. The final summary will be used to determine whether the contractor has passed or failed its performance against each specific project as it pertains to the contract requirements.
- 3) During the construction phase, all deficiencies will be communicated to the contractor in writing. If the issues are not corrected in a timely manner it may result in receiving a fail on the report card.

- 4) All Performance Evaluation Report Cards will outline deficiencies/infractions as outlined in the above evaluation criteria during the construction phase of a project. At the completion of each report card, the LCBO Coordinator will meet with the contractor to review and discuss the report card and obtain a sign off.
- 5) Any concerns or issues raised by the contractor during the review of each report card will be recorded and reviewed by the LCBO Coordinator. If deemed necessary the LCBO may amend the report card. If the contractor has further concerns with the report card, the contractor may dispute the performance evaluation by requesting a meeting with LCBO management.

Pass, Fail or Suspension of Contractor:

When a Contractor receives a total accumulated average score below 60% for all applicable report card evaluations throughout the term of a construction project, OR when a Contractor receives an accumulated total of three (3) failed report card evaluations as a result of Health & Safety infractions during the term of a construction project, the Contractor will be immediately suspended from bidding on any future LCBO projects for a period of two (2) years from the date of suspension.

Upon the return of a suspension, the suspended contractor will be reinstated and placed at the bottom of the waiting list of pre-qualified contractors.

If a Contractor receives a total accumulated average score below 60% for all applicable report card evaluations throughout the term of a construction project, OR when a Contractor receives an accumulated total of three (3) failed report card evaluations as a result of Health & Safety infractions during the term of a construction project upon its return from a suspension, the Contractor will be immediately suspended for an additional three (3) years.

Upon the return of a suspension, the suspended contractor will be reinstated and placed at the bottom of the waiting list of pre-qualified contractors.

NOTE:

1. When a contractor receives a Health & Safety infraction resulting in a score of less than 5 (Adequate) under the Health & Safety category on any report card during the course of the construction project, the report card will automatically be declared as a "Fail" for that specific report card.
2. Notwithstanding the above, depending on the significance of the Contractor's performance and/or wrong doing will directly impact the severity of consequences applied. When a Contractor has committed a serious offence during the term of the agreement, the LCBO may at its sole discretion, increase the term of the suspension, including prohibiting the Contractor from doing any future business with the LCBO indefinitely.

Dispute Resolution:

At the end of each project evaluation process and when the Contractor has concerns with its suspension, those concerns must be raised in writing to the LCBO within ten (10) business days of receiving the Notice of Suspension. If the LCBO does not receive any response in writing from the contractor, the contractor will be deemed to have accepted the suspension which is final and binding.

In the event that a contractor chooses to raise a concern related to its suspension, the contractor must submit its written concerns to the Manager, Procurement and Contract Management within ten (10) business days of receiving its suspension notice. The Manager, Procurement and Contract Management will review the matter and make a decision to confirm, modify or withdraw the suspension. The LCBO will provide the contractor with LCBO's written response within ten (10) business days of receiving the contractor's written concerns, or such other time as LCBO reasonably determines.

I, the undersigned, declare that I understand the Contractor Evaluation Process and I am fully aware of its implications.

DEFINITIONS

Add the following definition:

27. Submittals

Submittals are documents or items required by the Contract Documents to be provided by the Contractor, such as:

- Shop Drawings, samples, models, mock-ups to indicate details or characteristics, before the portion of the Work that they represent can be incorporated into the Work; and
- Record drawings and manuals to provide instructions to the operation and maintenance of the Work.

The General Conditions of the Stipulated Price Contract of the Standard Construction Document, CCDC 2, 2008, Stipulated Price Contract are hereby amended as follows:

THE GENERAL CONDITIONS OF THE STIPULATED PRICE CONTRACT

1. GC 1.1 CONTRACT DOCUMENTS

1.1 Add new sentence to the end of paragraph 1.1.6:

The Specifications are divided into divisions and sections for convenience but shall be read as a whole and neither such division nor anything else contained in the Contract Documents will be construed to place responsibility on the Consultant to settle disputes among the Subcontractors and Suppliers in respect to such divisions.

1.2 Amend paragraph 1.1.7 by adding the following to the end of that paragraph:

“The drawings are, in part, diagrammatic and are intended to convey the scope of the Work and indicate general and appropriate locations, arrangement and sizes of fixtures, equipment and outlets. The Contractor shall obtain more accurate information about the locations, arrangement and sizes from study and coordination of the drawings and shall become familiar with conditions and spaces affecting these matters before proceeding with the Work. 1.4 Add a new paragraph 1.1.11 as follows:

“The organization of Specifications into divisions, sections and articles, and the arrangement of drawings shall not control the Contractor in dividing the work among Subcontractors or in establishing the extent of the work to be performed by any trade. - .3 If a construction lien arising from the performance of the Work is registered against the Project lands, the Contractor shall, within ten (10) calendar days, at its expense, vacate or discharge the lien from title to the Project lands. If the lien is merely vacated, the Contractor shall, if requested, undertake the Owner's defence of any subsequent action commenced in respect of the lien at the Contractor's expense.
- .4 If the Contractor fails or refuses to vacate or discharge a construction lien or written notice of lien within the time prescribed above, the Owner shall, at its option, be entitled to take all steps necessary to vacate and/or discharge the lien, and all costs incurred by the Owner in doing so (including, without limitation, legal fees on a solicitor and his own client basis and any payment which may ultimately be made out of or pursuant to security posted to vacate the lien) shall be for the account of the Contractor, and the Owner may deduct such amounts from the amounts otherwise due or owing to the Contractor.
- .5 Without limiting any of the foregoing, the Contractor shall satisfy all judgment and pay all costs resulting from any construction liens or any actions brought in connection with any liens, or in connection with any other claim or lawsuit brought against the Owner by any person that provided services or materials to the Project lands which constituted part of the Work, and the Contractor shall indemnify the Owner for any and all costs (including, without limitation, legal fees on a solicitor and client basis) the Owner may incur in connection with such claims or actions.
- .6 This GC 5.10 – CONSTRUCTION LIENS does not apply to construction liens claimed by the Contractor, nor does it apply if the Owner has failed to pay the amounts due under the Contract.

“The Contractor agrees that changes resulting from construction coordination including but not limited to site surface conditions, site coordination, Subcontractor and Supplier coordination are included in the Contract Price and shall not entitle the Contractor to claim in addition to the Contract Price in relation to coordination.”

29. GC 6.2 CHANGE ORDER

29.1 Add new paragraph 6.2.3 as follows:

“The value of a change shall be determined in the following method as directed by the Consultant:

- .1 by submission by the Contractor of a quotation to the Owner and Consultant. Quotation to include itemized breakdown including the associated sub-contractors quotation(s) where applicable, product supplier quotation(s) where applicable, and supporting documentation on letterhead for any other relevant itemized breakdown listed on the Contractor’s quotation. Quotation may include the following mark-ups on the net amount(s) (ie. extra minus credit) for overhead and profit combined, where each percentage is not cumulative but is applied to the quotation of the work:
 - .1 Contractor’s mark-up on work of Contractor’s own forces: 15%;
 - .2 Contractor’s mark-up on Subcontractor’s work: 10%; and
 - .3 Subcontractor’s mark-up on Subcontractor’s work: 15%

29.2 Add new paragraph 6.2.4 as follows:

“The mark-up on changes is intended to cover all general expenses and overhead costs incurred by the Contractor in relation to the change. For greater certainty, the following items of cost of the Contractor in relation to any changes are covered by and included in the overhead and profit mark-up on changes:

- .1 project management costs
- .2 estimating, site supervision, safety, preparation of as-builts, coordination and administration costs

.4 general clean-up and disposal costs.

Any additional cost associated with bonding and/or insurance resulting from the change shall be included in the estimate of the cost of the change or as a line item included in the costs of the change, as may be applicable, but the Contractor shall not be entitled to mark-up on such additional cost, if any.”

29.3 Add new paragraph 6.2.5 as follows:

“The Contractor shall not be entitled to any additional compensation arising out of changes to the Work aside from the amounts determined and agreed to under this GC 6.2, or as provided in GC 6.3.”

30. GC 6.3 CHANGE DIRECTIVE

30.1 Delete paragraph 6.3.6.3 and replace it with the following:

“The Contractor’s fee shall be conformance with paragraph 6.2.3.3.”

31. GC 6.4 CONCEALED OR UNKNOWN CONDITIONS

31.1 Delete paragraph 6.4.1 and replace it with the following:

“The Contractor acknowledges and confirms that:

.1 prior to submitting its bid price for the Project, it had carefully investigated the Place of the Work. The Contractor represents that in that investigation it applied the degree of care and skill displayed by experienced and competent contractors tendering on similar work when given the amount of time provided between the issue of tender documents and the actual closing of tenders. To the extent that such investigation permitted, the Contractor has satisfied itself as to the conditions and requirements necessary for the Contractor to perform the work in accordance with the contract documents, including, but not necessarily limited to, such things as:

- .1 the nature and location of the Work,
- .2 the character and content of the Work to be done,

- .3 the equipment and facilities needed for the on-time execution and completion of the Work, and
- .4 all labour restrictions, including availability of skilled trades, safety hazards and labour contract negotiations which may have an impact on the execution of the Work.
- .2 If the Contractor has not conducted such an investigation, it is deemed to assume all risk of conditions or circumstances now existing or arising in the course of the Work which could make the Work more expensive or more difficult to perform than was contemplated at the time the Contract was executed. No claim by the Contractor will be entertained in connection with conditions which would reasonably be ascertained by such investigation made prior to the execution of the Contract.”

31.2 Amend paragraph 6.4.2 by adding a new first sentence which reads as follows:

“Having regard to paragraph 6.4.1, if the Contractor believes that the conditions of the Place of the Work differ materially from those reasonably anticipated, differ materially from those indicated in the Contract Documents or were concealed from discovery notwithstanding the conduct of the investigation described in paragraph 6.4.1, it shall notify the Owner and Consultant in writing no later than five (5) Working Days after the first observation of such conditions.”

31.3 Amend the existing second sentence of paragraph 6.4.2, in the second line, following the word “materially” by adding the words “or were concealed from discovery notwithstanding the conduct of the investigation described in paragraph 6.4.1.”

31.4 Delete paragraph 6.4.3 and substitute the following:

31.5 Add new subparagraph 6.4.5:

6.4.5 The Contractor confirms that, prior to bidding the Project, it carefully investigated the Place of the Work and applied to that investigation the degree of care and skill described in paragraph 3.14.1, given the amount of time provided between the issue of

the bid documents and the actual closing of bids, the degree of access provided to the Contractor prior to submission of bid, and the sufficiency and completeness of the information provided by the Owner. The Contractor is not entitled to compensation or to an extension of the Contract Time for conditions which could reasonably have been ascertained by the Contractor by such careful investigation undertaken prior to the submission of the bid.

32. GC 6.5 DELAYS

- 32.1 Amend paragraphs 6.5.1 by deleting all of the words in the fourth line following the word “for” and substituting the following:

- 32.2 Amend paragraph 6.5.2 by: (i) adding after the words “directly or indirectly,” in the third line the following:

“and provided the issuance of such order was the direct result of an action or omission of the Owner or Consultant or any person employed or engaged by the Owner or Consultant,”;

and (ii) by deleting the words “reasonable costs incurred by the Contractor as a result of such delay” and substituting the following:

“reasonable direct costs directly flowing from the delay but excluding any indirect, consequential, or special damages.”

- 32.3 Add new paragraph 6.5.6 as follows:

“If the Contractor delays the performance of the Work and such delay is for a cause within the Contractor’s control, the Contractor shall reimburse the Owner for the reasonable costs incurred by the Owner as the result of such delay or delays.”

- 32.4 Add new paragraph 6.5.7 as follows:

“The Contractor shall be responsible for the care, maintenance and protection of the Work in the event of any suspension of construction as a result of the delay described in paragraph 6.5.1, 6.5.2, 6.5.3 or 6.5.6. In the event of suspension arising from delay

described in paragraph 6.5.1, 6.5.2 or 6.5.3, the Contractor shall be reimbursed by the Owner for the reasonable costs incurred by the Contractor for such protection. The Contractor's entitlement to costs pursuant to this paragraph 6.5.7, if any, shall be in addition to amounts, if any, to which the Contractor is entitled pursuant to paragraph 6.5.1, 6.5.2 or 6.5.3.

32.5 Add new paragraph 6.5.8 as follows:

"The parties acknowledge that in March 2020 the World Health Organization declared a global pandemic of the virus leading to COVID-19. The Governments of Canada and the Province of Ontario responded to the pandemic with legislative amendments, controls, orders, requests of the public, and requests and requirements to the parties to change their activities in various ways (collectively, the "**Governmental Response**"). It is uncertain how long the pandemic, and the related Governmental Response, will continue, and it is unknown whether there may be a resurgence of the virus leading to COVID-19 or any mutation thereof (collectively, the "**Virus**") and resulting or supplementary renewed Government Response. Notwithstanding any other provision in the Contract Documents, the parties acknowledge and agree that delays in the Contractor's performance of the Work caused by the continued spread of the Virus and/or the continuation of or a renewed Governmental Response to control the spread of the Virus constitutes a cause beyond the Contractor's reasonable control pursuant to GC 6.5.3.4. For greater clarity, any such delays to the Contractor's performance of the Work shall only entitle the Contractor to an extension to the Contract Time as contemplated in GC 6.5.3 and the Contractor shall not be entitled to any payment for costs incurred by such delays. Nothing in this GC 6.5.8 shall excuse the Contractor from complying with the provisions of GC 6.5 – DELAYS including, without limitation, the obligation to provide a Notice in Writing of the cause of the delay pursuant to GC 6.5.4."

32.6 Add new paragraph 6.5.9 as follows:

"Notwithstanding any other provision in the Contract, the Owner shall not be liable or deemed to be in breach of the Contract for any failure or delay in rendering performance arising out of:

- .1 the Virus;
- .2 Governmental Response; and

.3 any impacts to the Owner's operations and performance of its obligations hereunder that are beyond its reasonable control and are caused by, relate to or arise out of the Virus or the Governmental Response (including, without limitation, any delays in obtaining possession or access to the Place of the Work or in obtaining permits from permitting offices or authorities).

Without limiting the foregoing, and without limiting the application or generality of GC 6.5.8, the Owner shall not be liable to pay to the Contractor any compensation or costs of any kind as a result the Virus or Governmental Response or any delays caused by, related to or arising out of the Virus or the Governmental Response, including without limitation costs on account of increased labour or material costs."

33. GC 7.1 OWNER'S RIGHT TO PERFORM THE WORK, STOP THE WORK OR TERMINATE THE CONTRACT

33.1 Amend paragraph 7.1.2 by adding the words "including failing or neglecting to comply with the requirements in GC 3.5..." immediately following the word "properly" in line one.

33.2 Add new paragraph 7.1.7 as follows:

"If the Owner terminates the Contractor's right to continue with the Work as provided in paragraphs 7.1.1 and 7.1.4, the Contractor shall, as a condition of receiving the payments, execute and deliver such papers and take such action, including the legal assignment in the Contractor's contractual rights, as provided in GC 7.3, as the Owner may require for the purpose of fully vesting in the Owner the rights and benefits of the Contractor under the obligations or commitments to assumed by the Owner."

33.3 Add new paragraph 7.1.8 as follows:

"The Owner may, if conditions arise which make it necessary for reasons other than as provided in paragraphs 7.1.1 and 7.1.4, suspend performance of the Work or terminate the Contract by giving written notice to that effect to the Contractor identifying the reason for the suspension and the expected length of the suspension. Such suspension or termination shall be effective in the manner specified in said notice and shall be without prejudice to any claims which either party may have against the other."

“The Contractor upon receiving notice of suspension or termination from the Owner shall suspend all operations as soon as reasonably possible except work which, in the Contractor’s opinion is necessary for the safety of personnel and for the care and preservation of the Work, the materials and plant. In the event of such suspension, the Contractor shall be reimbursed by the Owner for the reasonable costs incurred by the Contractor for such protection. Subject to any directions in the notice of suspension or termination, the Contractor shall discontinue ordering materials, facilities and supplies and make every reasonable effort to delay delivery of existing orders and, in the event of termination, to cancel existing orders on the best terms available.”

33.5 Add new paragraph 7.1.10 as follows:

“During the period of suspension, the Contractor shall not remove from the site any part of the Work, or any Product or materials without the consent of the Owner. ”

33.6 Add new paragraph 7.1.11 as follows:

“If the Work should be suspended for a period of 30 days or less, the Contractor, upon the expiration of the period of suspension, shall resume the performance of the Work in accordance with the Contract Documents. If the suspension was not due to an act or an omission of the Contractor, there shall be an equitable adjustment to the Contract Time and the Contract Price.”

33.7 Add new paragraph 7.1.12 as follows:

“If, after 30 days from the date of notice of suspension of the Work the Owner and the Contractor agree to continue with and complete the Work, the Contractor shall resume operations and complete the Work in accordance with any terms and conditions agreed upon by the Owner and the Contractor.”

34.3 Amend paragraph 7.2.3.4 by deleting the comma toward the end of the first line. Further amend paragraph 7.2.3.4 by deleting the phrase beginning with the word “except” and ending with the word “Owner”.

- .3 completes the correction in accordance with such schedule.”

34.5 Delete renumbered paragraph 7.2.6 in its entirety and replace it with the following:

In cases where other contractors (including the base building contractor), or Owners’ own forces or suppliers hired and paid for by the Owner, do not have separate defined work areas the Contractor will, as a specific term and condition of this contract, assume all the Duties and Responsibilities of the Constructor as set out in OHSA over any and all aforementioned “other contractors”, “Owners own forces” and “suppliers hired and paid for by the Owner”. The Contractor agrees to assume full responsibility and oversight authority as the Constructor over each and will ensure strict compliance to the Contractor’s own Occupational Health and Safety Policy and Program.
